BEECH CREEK BRANCH LINE

Comment Form for Public Scoping Meeting February 10, 2009

Thank you for joining us tonight to learn about environmental studies for the proposed reactivation of the Beech Creek Branch Line. An important component of the environmental clearance process is to gather and consider comments from the interested public. Please complete the information below and deposit this form in one of the collection boxes marked "Comment Forms".

1. In which municipality and county is your residence located?

Snow Shoe Township, Centre County

2. How did you learn about the meeting tonight?

E-Mail

3. Please tell us your comments about the information presented here tonight. (How well was the information presented; was it informative and understandable; were the consultants helpful in answering your questions; etc.)

Somewhat

4. What additional comments about the proposed rail reactivation would you like to add?

This project is a big mistake. It will allow Resource Recovery to destroy our beautiful community by stinking it up, ruining our streams and forest, being a terrible eyesore for visitors and travelers on Int. 80.

It will ultimately destroy our way of life for myself, my children and grandchildren who all live in the area and have a negative impact for generations to come.

It invites pollution, rodents, sickness, eye sores, and destroys recreation. Doing this violates common sense
